

Clarus Enrichment Program

Purpose: These classes are designed to build character, teach life skills through chess, enhance academics, and help develop each child's skills and abilities.

Dates/Times: Classes follow the Bellevue School District calendar running Monday-Friday, 2:30pm-6:30pm depending on class.

Transportation: Transportation from some schools is provided for full-time enrichment program students only.

Homework Time/Assistance/Reading | 2:30pm-4pm (daily)

This quiet time is for students to complete their school homework. Students are given assistance by qualified staff as needed. Once their homework is complete, students are given 20-30 minutes of reading time. Books at all different reading levels are provided.

Elliott's Chess School Classes/Tournaments | 4pm-6pm (2x-3x per week)

Chess classes are taught Monday-Saturday with most students attending 2-3 times per week. Each student receives a chart of accomplishment to track their progress, earning recognition as he/she demonstrates completion of the elements at each level. The classes follow curriculum developed by National Master Elliott Neff, working from basic to advanced topics. Tournaments and workshops are scheduled throughout the year and are used to enhance the child's chess ability.

Math Whizz | 2:30pm-6:00pm (1x per week plus online account can be used at home)

Math Whizz is a leading online math software program for children ages 5-13. The program uses interactive math animations and unique tutoring methodology to deliver proven measurable results in math.

Karate | Wednesdays, 2:05pm-3:05pm and/or Fridays, 3:30pm-4:30pm. See Karate flier for additional fee.

Open Chess Practice | Monday-Friday, 3:30pm-4:45pm (2x per week)

Open chess practice is designed for students to practice chess skills they have learned. If no student is available at their level, they may use computer chess programs.

Character Class | 2 Wednesdays per month, 3:10pm-3:50pm

Using an established and true curriculum called *Character First*, these classes teach children ethics and how to be leaders in the choices they make each day. The focus is on one character trait per month through examples, stories, poems, and demonstrations.

Science | 2 Wednesdays per month, 3:10pm-3:50pm

These science classes, ranging from composting to aviation, are interactive in nature and encourage critical thinking.

Learning Games/Activities | 5:00pm-6:30pm (2x per week)

Board games, building materials, and puzzles are played during this time. All encourage a skill and help students learn to work with others. Whether it's counting to make change in monopoly, or using deductive reasoning to get the cars out of a traffic jam, there are numerous activities that encourage thoughtful play.

All-inclusive, full-time rate above (excluding Karate class)..... **\$495**
(Savings of more than \$350/month) Plus, a special bonus only for all-inclusive
monthly members: FREE chess workshops and camps on school breaks! **PER MONTH**
